Index to *Surveying and Land Information Systems*, vol. 55

AUTHORS

Adler, Ron. International land boundary database. 55(4): 212-216.
Agnard, J.-P (see Gagnon, P.-A.)
Barnes, Albert H. Comment and Discussion RE: "Horizontal orientation." 55(1): 54.
Boulianne, M. (See Gagnon, P.-A.)
Brandenberger, A. J. Special Report: World surveying and mapping manpower and training facilities. 55(3): 142-44.
Burtch, Robert. Book Review of *Surveying: Principles and applications*. 55(1): 53-54.
Critchfield, Douglas W. Retroreflector geometry. 55(4): 192-197.
Dale, Peter F. Professionals and ethics —A guide for surveyors. 55(1): 50-52.
Dewitt, Bon A. (See Shrestha, Ramesh L.)
Dewitt, Bon A. (See Smith, S. E.)
Dewitt, Bon A. Book Review of *Elementary surveying*. 55(3): 160-61.
Dracup, Joseph F. Least-squares adjustment by the method of observation equations with accuracy estimates. 55(2): 59-71.
Drew, Alice R. Obtaining accurate boundary locations for land information systems. 55(4): 171-175.
Dubeau, François. Solving horizontal circular curves. 55(2): 83.
Easa, Said M. Estimating line segment reliability using Monte Carlo simulation. 55(3): 136-41.
Gagnon, P.-A., J.-P. Agnard, M. Boulianne, and C. Nolette. Impact of softcopy photogrammetry on surveying and LIS activities. 55(3): 145-49.
Gerdan, George P. Differential C/A-code positioning. Is it worth the wait? 55(4): 176--182.
Gonzalez, E. P. (See Smith, S. E.)
Hall, Lucy W. (See Soler, Tomás.)
Hendrix, Steven E. Tenure insecurity in Venezuela: Empirical data on the failure of cadastral and registry systems in the reformed agrarian sector. 55(2): 92.
Hilla, Steve. Book Review of *Global positioning system—Theory and practice*. 55(4): 217-219.
Hurt, G. W. (See Smith, S. E.)
Malcom-Lim, Linda. Developing a survey system for archaeological study of Indian petroglyphs. 55(3): 150-58.
Milbert, Dennis. (See Parks, Wesley.)
Milbert, Dennis. Book Review of *GPS satellite surveying*. 55(4): 219.
Miller, Michael. Comment and Discussion RE: Size of the land surveying profession in the United States and its territories. 55(1): 54.
Nolette, C. (See Gagnon, P.-A.)
Nolton, John. Book Review of *Foundations of differential geodesy*. 55(3): 159.
Parks, Wesley, and Dennis Milbert. A geoid height model for San Diego County, California, to test the effect of densifying gravity measurements on accuracy of GPS derived orthometric height. 55(1): 21-38.
Reilly, Jeffrey. (See Shrestha, Ramesh L.)
Rodriguez, Ruben. The development of geodesy and cartography in Argentina. 55(2): 77-82.
Rüeger, J. M. Instrument heights in EDM-traversing. 55(4): 198-211.
Shrestha, Ramesh L., Bon A. Dewitt, and Matthew M. Wilson. Consideration and effect of a local base station range in horizontal position determination by GPS techniques. 55(1): 39-49.
Shrestha, Ramesh L., and Jeffrey Reilly. Evaluation of azimuths determined by kinematic GPS. 55(3): 125-35.
Smith, S. E., B. A. Dewitt, E. P. Gonzalez, and G. W. Hurt. Georeferencing of satellite imagery for digital soil mapping. 55(1): 13-20.
Soler, Tomás, and Lucy W. Hall. Establishment of a GPS high accuracy geodetic network in Rumania. 55(4): 183-191.
Stoughton, Herbert W. Eratosthenes of Cyrene's contribution to geodesy. 55(2): 72-76.
Tamin, Najeh. A methodology to create a digital cadastral overlay through upgrading digitized cadastral data. 55(1): 3-12.
Wijayratne, Indrajith. A baccalaureate degree program for the traditional surveyor. 55(3): 115-24.
Wilkie, R. Cliff. Trivial baselines as redundant measurements. 55(2): 99.
Wilson, Matthew M. (See Shrestha, Ramesh L.)

ARTICLES

Wijayratne, Indrajith. A baccalaureate degree program for the traditional surveyor. 55(3): 115-24.
Shrestha, Ramesh L., Bon A. Dewitt, and Matthew M. Wilson. Consideration and effect of a local base station range in horizontal position determination by GPS techniques. 55(1): 39-49.
Malcom-Lim, Linda. Developing a survey system for archaeological study of Indian petroglyphs. 55(3): 150-58.
Rodriguez, Ruben. The development of geodesy and cartography in Argentina. 55(2,): 77-82.
Gerdan, George P. Differential C/A-code positioning. Is it worth the wait? 55(4): 176-182.
Stoughton, Herbert W. Eratosthenes of Cyrene's contribution to geodesy. 55(2): 72-76.
Soler, Tomás, and Lucy W. Hall. Establishment of a GPS high accuracy geodetic network in Rumania. 55(4): 183-191.
